

Order form for Data Overview per § 34 BDSG

We want you to be comprehensively informed. Along with the Data Overview you also get information on score inquiries placed by contract partners within the last twelve months. Credit scores are calculated based on historical data to provide as reliable an indication as possible. Statistical methods are used to calculate for example the likelihood that a consumer will be able to meet his or her contractual payment obligations.

Please provide the following information allowing us to process your order:
